BULLETIN #116

FEB 1993

PAGE 1/1

MODELS AFFECTED	P-36, P-37
SUBJECT	NEW PART NUMBERS FOR ENGINE BRAKE KITS

We are changing the format of Pacbrake engine brake kits models P-36 and P-37 for Caterpillar 3406 engines. Caterpillar has 3 fuel control systems presently in the field.

Effective Feb. 1, 1993 we will supply base kits and a choice of control groups. This will reduce inventory costs at all levels.

Here are the new numbers:

Model	Part Number	Description
P-36	P34616	Base Kit
	P34617	Mechanical control group
	P34618	PEEC II control group
	P34619	PEEC III control group

P-36 base kit and the control group of choice will supersede kit part numbers, 34600/P34602/P34612/P34613/P34614.

Model	Part Number	Description
P-37	P34719	Base Kit
	P34720	Mechanical control group
	P34721	PEEC II control group
	P34722	PEEC III control group

P-37 base kit and the control group of choice will supersede kit part numbers, P34715/P34716/P34717/P34718.
