

SUBJECT

Release of New Control Valve, New Inner and Outer Control Valve Springs and Spring Collar

MODEL NUMBER

P-14

Pacbrake has released a new control valve, inner and outer control valve springs and collar for ALL P-14 engine brakes.

The **new** control valve part number **P11930** replaces the previously used part number **P01500**. The **new** outer control valve spring part number **P11436** replaces the previously used **P11434**. The new inner control valve spring part number **P11437** replaces the previously used **P11435**. Pacbrake has added a collar (**P14100**) for the outer control valve spring to sit on.

CAUTION: Do not mix these parts or serious engine/engine brake damage will occur. The new parts are available through the Pacbrake distribution system.

This product is subject to campaign.
Refer to P-14 Campaign L5327.
