

## PH3 Shut-Off Valve

### Membrane Switch Installation Torque Change

#### PART NUMBERS AFFECTED:

- C20540
- C20540A
- C20541
- C20541A

#### KITS AFFECTED:

- C50093
- C50094
- C50144
- C50221A
- C50222A
- C50223A
- C50224A
- C50225A
- C50226A
- C50228A
- C50229A
- C50230A
- C50235A
- C50239A
- C50242A
- C50243A
- C50244A
- C50246A

Torque used on the 2 nuts provided to attach PH3 Shut-Off Valve (SOV) membrane switch to the dashboard or control panel must be 15-25 in-lbf (1.7-2.8) N•m.

**CAUTION:** Over-torque on these nuts can create a risk of malfunction of the membrane switch.
